## Ensure Your Fleet's Safety and Efficiency in 2025

Is 2025 the year you firm up on your driver risk and driver compliance in your organisation?

Requirements exist under Health & Safety at Work laws, but there are plenty of other legal, financial and moral reasons why ensuring you have a robust and effective driver training programme is just plain sensible.

## SafetyFirst - Always!

The new RED 'SafetyFirst' system is also being embraced really well - helping fleet controllers and administrators to manage drivers, vehicles and training easily. It includes automated direct DVLA licence checking too!

The image shows a promotional graphic for the SafetyFirst system. On the left, there is a green shield icon with a white checkmark, followed by the text "SafetyFirst". Below this is a white button with the text "BOOK YOUR DEMO". In the center, there is a Yottalink RED device. On the right, a computer monitor displays the SafetyFirst web interface. The interface has a sidebar menu with options like "Drivers", "Vehicles", "City Fleet", "e-Learning", "Risk Assessment", "Training Plans", "DVLA Licence Checks", "Training Reports", "Reports", "Media Library", and "Contact Support". The main content area shows "Government/Driver Agency Information" and "Licence Information" for a driver named CHRIS. The licence information includes details like Licence Number, Licence Type, Licence Status, and Expiry Date. At the bottom of the graphic, there is a black banner with the text "Risk Management. Training. Compliance." in white.
